5.2.Pairing to Mobile phone or other device

To use your Ear Buds , you must first pair your Ear Buds with a phone or a computer. Once your Ear Buds is paired to a specific mobile phone, they will remain paired and automatically recognize each other whenever they are within range.

Pairing to a phone and Entertainment:

- Turn on your phone and ensure its Bluetooth function is activated
- Turn on the Ear Buds go to the paring mode.
- Search your Bluetooth devices on your phone by following the phone's instructions. Refer to your phone's user manual for more information.
- After a few second the phone will list the device as a discover device. Select it and follow your phone instruction to select this pairing.
- Then your phone will request a passkey or PIN, enter 0000 as your PIN or passkey.
- Your phone will confirm the pairing, and then press Yes/Ok.
- Finally, select to connect with device from your phone.
- You can play music; watch TV/movie and play game with your phone, then your can hear all the sound or music form the device. Also you can control the player by operating the device. Example, volume up and next music.

Pairing to a computer and Entertainment:

- If there is no Bluetooth function supported by your computer, a Bluetooth adapter is necessary. Fix the adapter with your computer and ensure its Bluetooth function is activated.
- Turn on the device and go to the paring mode.
- Open the Bluetooth software (such as BlueSoleil) installed on your computer, and selects "Search your Bluetooth devices" function. Refer to user manual of the Bluetooth software for more information.
- After a few second the " device name" will list in Bluetooth software of your computer as a discover device.
- Select this device and click right button of mouse to select "pairing" item,then select "connect with audio device" with same operation.
- Open your media player to play music, watch TV/move and play game, then all the sound will be playback on your device.
